SUMMARY

Software Engineering undergraduate with strong foundations in Data Structures, Algorithms, Object-Oriented Programming, and backend development. Experienced in building RESTful services, microservices, and event-driven systems using Java, Spring Boot, Apache Kafka, PostgreSQL, MySQL, and Docker. Strong problem-solving skills demonstrated through 650+ coding problems across competitive programming platforms.

SKILLS

Languages: C++, Java, Python, JavaScript, TypeScript, GO, SQL

Software Engineering: DSA, OOP, REST APIs, Microservices, Event-Driven Architecture

Backend: Spring Boot, Node.js, Express.js

Databases: PostgreSQL, MySQL, MongoDB

Distributed Systems: Apache Kafka, Outbox Pattern, Saga Pattern, Idempotent Processing

Tools: Git, GitHub, Docker, Redis

Frontend: React.js, Next.js, HTML5, CSS3

Core CS: DBMS, Operating Systems, Computer Networks

PROJECTS

Real-Time Order & Delivery Platform

Next.js, React.js, TypeScript, Go, Node.js, PostgreSQL, Redis, Kafka, WebSockets, Docker

- Built a real-time order and delivery platform with live order tracking and delivery status updates.
- Developed Go and Node.js backend services with REST APIs, WebSockets, PostgreSQL, Redis, and Kafka.

Event-Driven Order Processing System

Java, Spring Boot, Apache Kafka, MySQL, Docker

- Built an event-driven microservices system using Spring Boot, Apache Kafka, and MySQL.
- Implemented Outbox Pattern, idempotent consumers, retry mechanisms, DLQ, and Saga-based compensation workflows.

PolicyGuard AI

React.js, Node.js, Express.js, MongoDB Atlas, OpenAI/Gemini API, Docker

- Built an AI-powered full-stack platform to analyze privacy policies and legal documents using OpenAI and Gemini APIs.
- Developed secure REST APIs with JWT authentication and MongoDB Atlas, implementing document summarization, risk detection, and compliance scoring.

WORK EXPERIENCE

Technical Hub Pvt Ltd

May–June 2026

Full Stack Development Trainee

- Built responsive web applications using React.js and developed backend services with Node.js and Express.js.
- Designed RESTful APIs, integrated PostgreSQL databases, and collaborated using Git-based development workflows.
- Participated in debugging, testing, and performance optimization to improve application reliability and user experience.

CODING PROFILES

LeetCode – 340+ Problems **GeeksforGeeks** – 200+ Problems

CodeChef – 150+ Problems **HackerRank** – 20+ Badges

EDUCATION

2023 – Present	Aditya Engineering College, Surampalem B.Tech – Artificial Intelligence and Machine Learning, CGPA: 8.85/10
2021 – 2023	Sri Chaitanya Junior College – 90.2%
2020 – 2021	Surya E.M. High School – 100%

CERTIFICATIONS

- AWS Certified AI Practitioner
- Oracle AI Foundations Associate
- NPTEL – DBMS, AI, Deep Learning, IoT
- Cisco C Programming
- Cisco Python Programming
- MongoDB Certified Associate Developer
- GitHub Foundations
- SQL Basics
- Cisco C++ Programming
- HTML & CSS – Pearson
